# Murendeni Construction Architects Mobile App: User Guide

Version 1.0 | Prepared by: Cybersquad

## 1. About this guide

This guide explains how to use the Murendeni Construction Architects mobile app on an Android phone. The app connects to the same system as the Murendeni website, so a change made in the app (for example a new project status) also shows on the website, and the other way round.

The app is used by three kinds of people:

- **Clients** follow their projects, view and download design files, send inquiries and manage their details.
- **Designers** see the projects assigned to them, update project status and upload design files.
- **Sales staff** manage all inquiries, create client accounts and projects, and assign designers.

Admin accounts are used on the website only. An Admin who logs in to the app is shown a message saying so.

Words in **bold** are the exact names of buttons and labels on screen. Lines that start with *Screenshot* mark where a picture of the screen belongs.

## 2. What is needed

- An Android phone running Android 8.0 or newer.
- An internet connection (Wi-Fi or mobile data).
- An email address and password. Clients can create their own account in the app. Staff accounts are created by an Admin on the website.

The server can take up to a minute to answer the first request after a quiet period. If the first attempt fails, wait a moment and try again.

## 3. Getting started

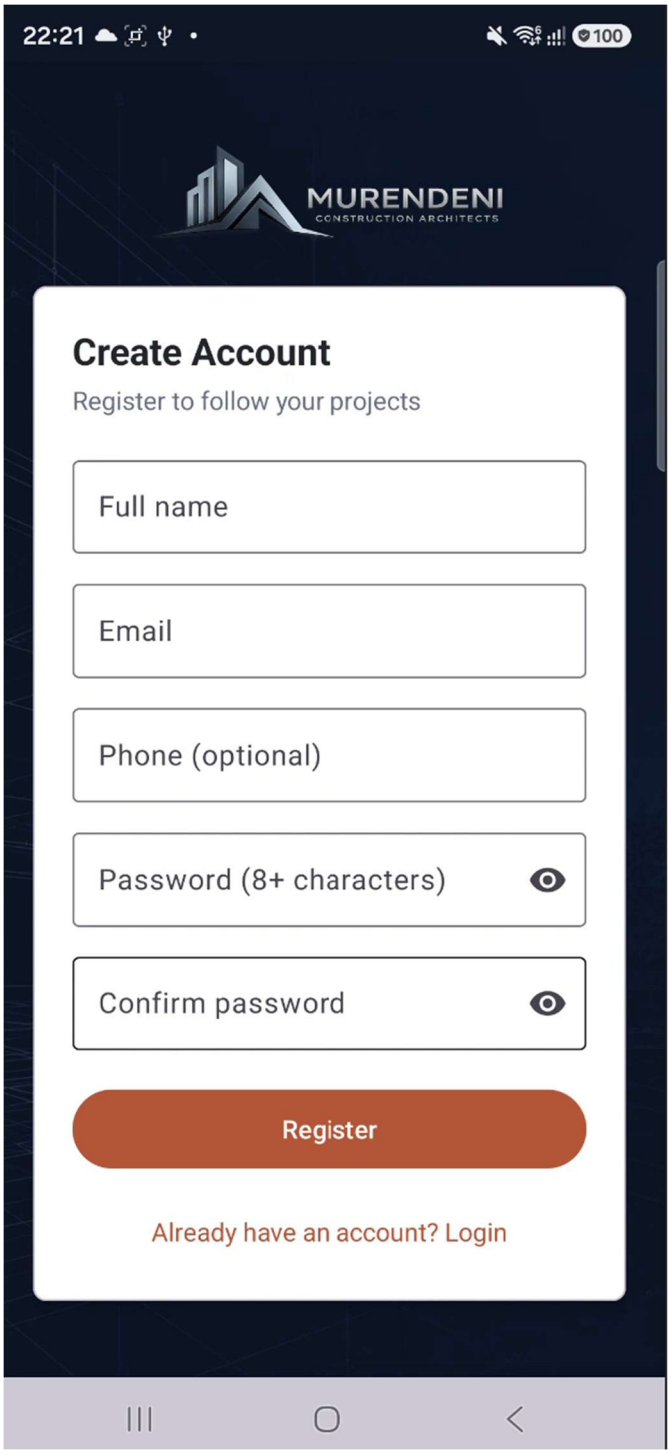

### 3.1 Installing the app

Install the APK file supplied by the team. Copy it to the phone, tap it, and allow installation from that source if Android asks. The app appears as **Murendeni Architects**.

### 3.2 Creating an account (clients only)

1. Open the app. The **Login** screen appears.
2. Tap **Don't have an account? Register**.
3. Fill in **Full name**, **Email**, **Phone (optional)**, **Password (8+ characters)** and **Confirm password**.
4. Tap **Register**. The account is created and the **Projects** screen opens.

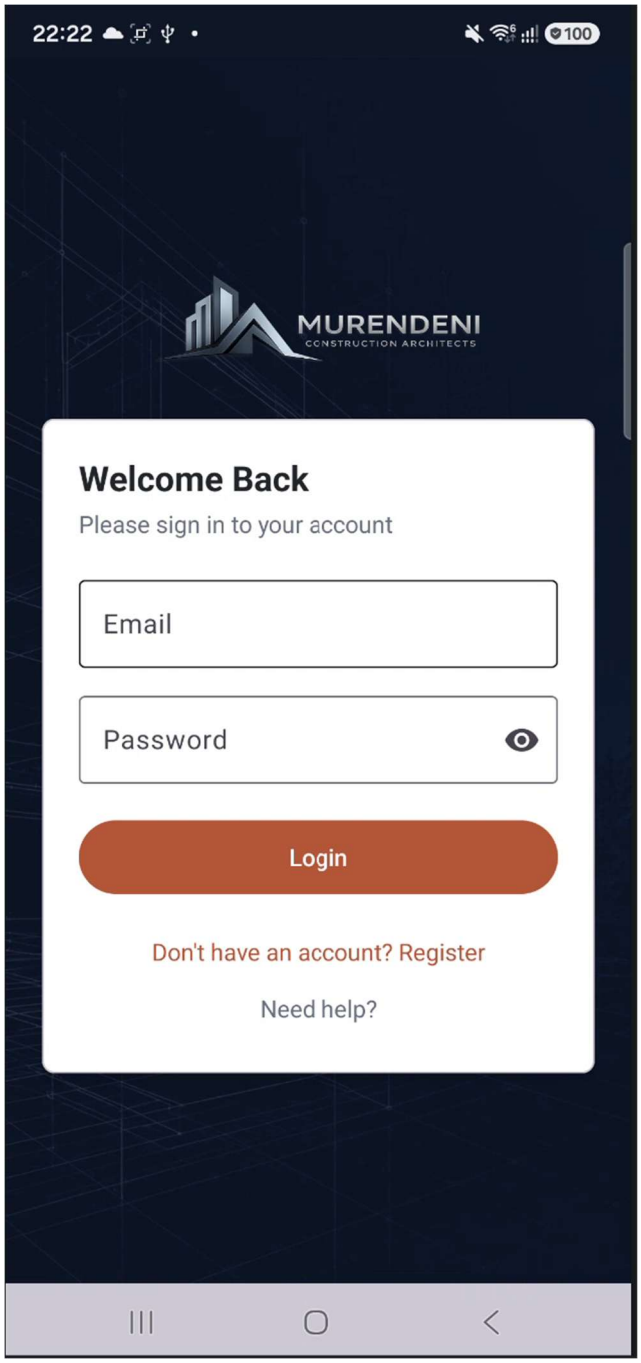

If a red message appears, correct the field it describes. The app checks that the name is filled in, the email is valid, the password has at least 8 characters and both passwords match. The server also rejects an email address that is already registered.

### 3.3 Logging in

1. Type the **Email** and **Password**. Tap the eye icon to show or hide the password.
2. Tap **Login**.

Clients, designers and sales staff all land on the **Projects** screen, with the extra options for their role. A wrong email or password shows the message Incorrect email or password.

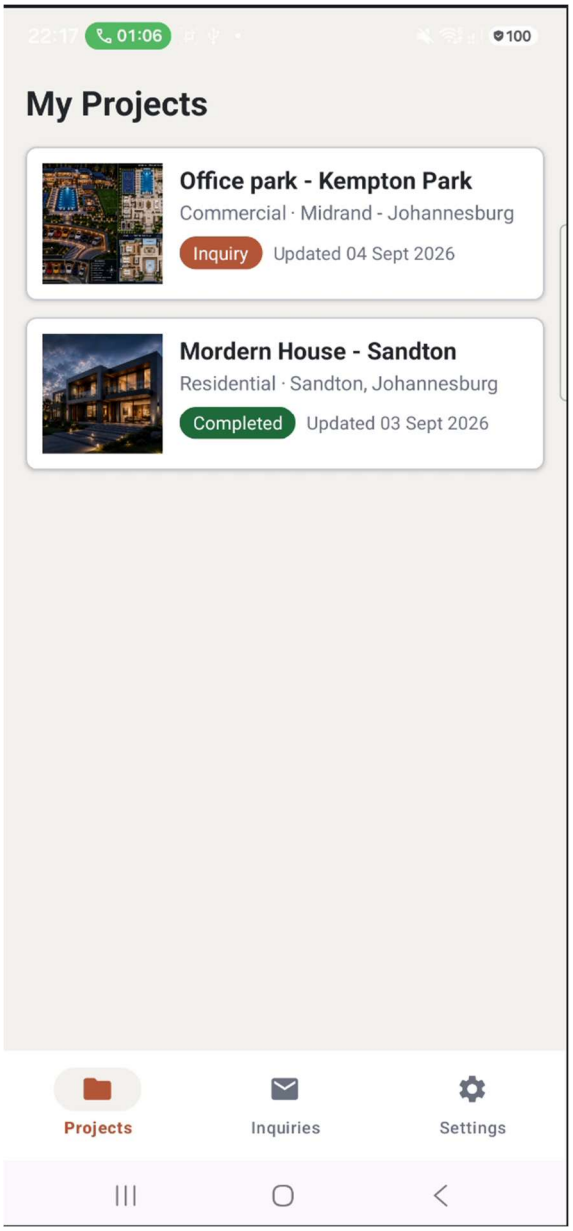

### 3.4 Logging out

Open the **Settings** tab, tap **Log out**, then confirm with **Log out**. A login lasts 24 hours. After that the app returns to the login screen with a message that the login has expired, and the user logs in again.

## 4. Finding your way around

The bar at the bottom of the screen has up to three tabs.

| Tab | Who sees it | What it is for |
|---|---|---|
| Projects | Everyone | The list of projects. Clients see their own, designers see the ones assigned to them, sales staff see all. |
| Inquiries | Clients and sales staff | Clients send and follow inquiries. Sales staff manage every inquiry. |
| Settings | Everyone | Account details, password, help and log out. |

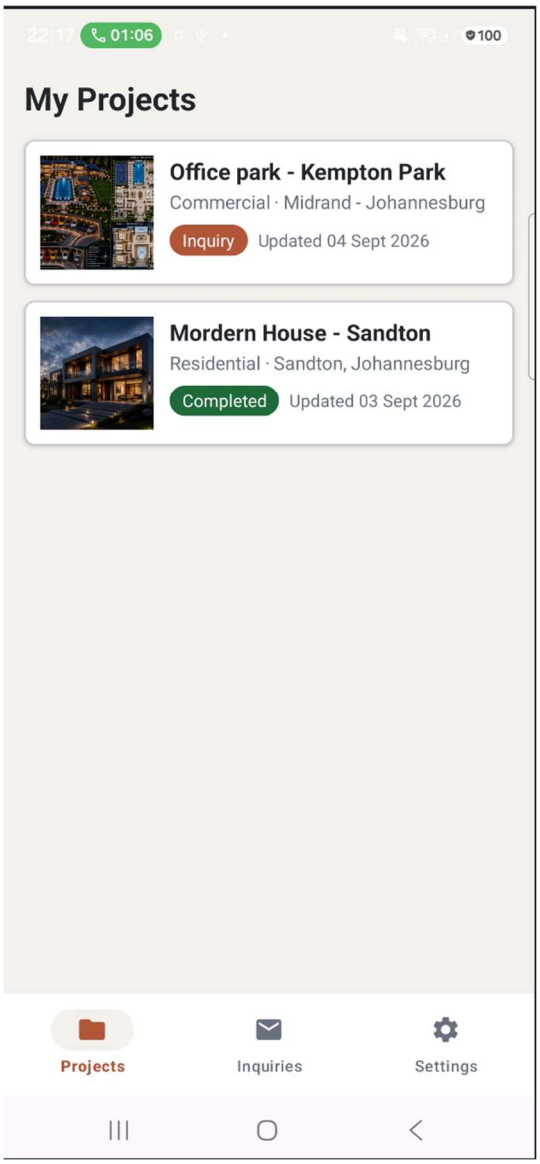

Every list can be refreshed by pulling it down. If a screen cannot load, a red message and a **Try again** button appear.

## 5. Guide for clients

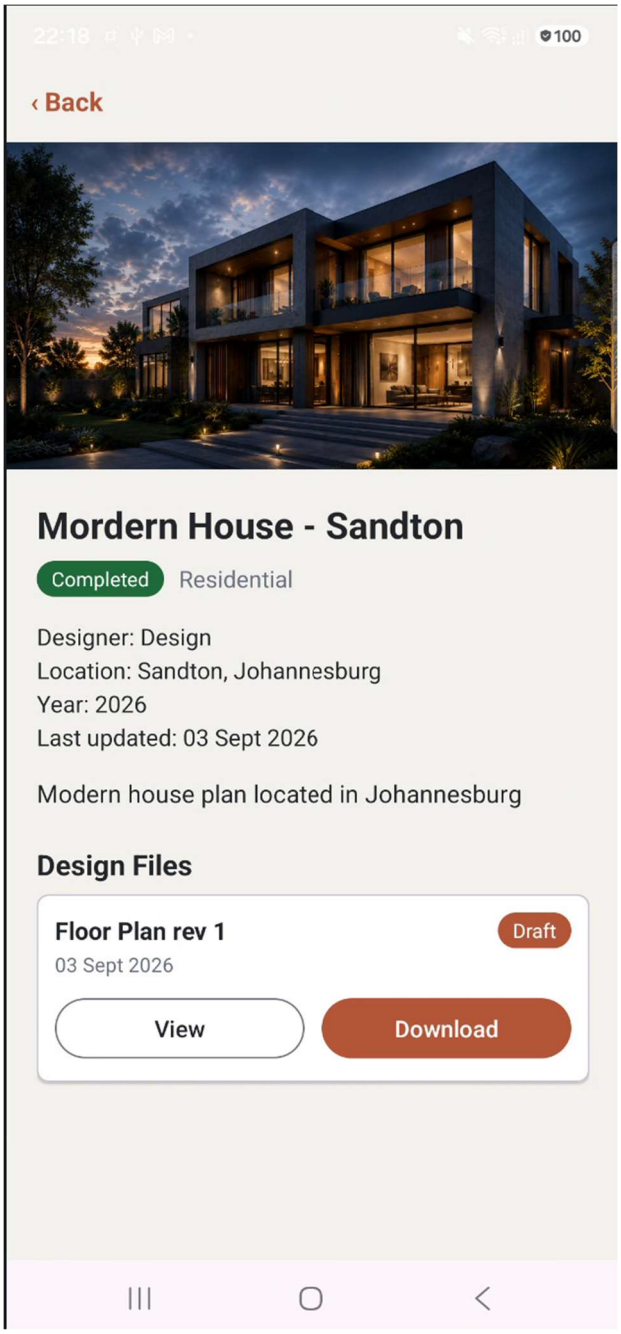

### 5.1 Seeing your projects

Open the **Projects** tab. The title is **My Projects**. Each card shows the cover photo (a grey block if there is none), the project name, the property type and location, a coloured status label and the date it was last updated. Tap a card to open the project.

### 5.2 Project details

The project screen shows the cover photo, name, status, property type, designer, location, year, last updated date and description. Tap **‹ Back** to return to the list.

### 5.3 Viewing and downloading design files

Scroll to **Design Files**. Each file has a title, a status label, the date it was added and two buttons:

- **View** opens the file in the phone's browser or another app that can show it.
- **Download** saves the file to the phone's Downloads folder. A notification appears when the download has finished.

If a project has no files, the screen says that no files have been uploaded yet. The design team adds files as the work progresses.

# Mordern House - Sandton

Completed Residential

Designer: Design
Location: Sandton, Johannesburg
Year: 2026
Last updated: 03 Sept 2026

Modern house plan located in Johannesburg

## Design Files

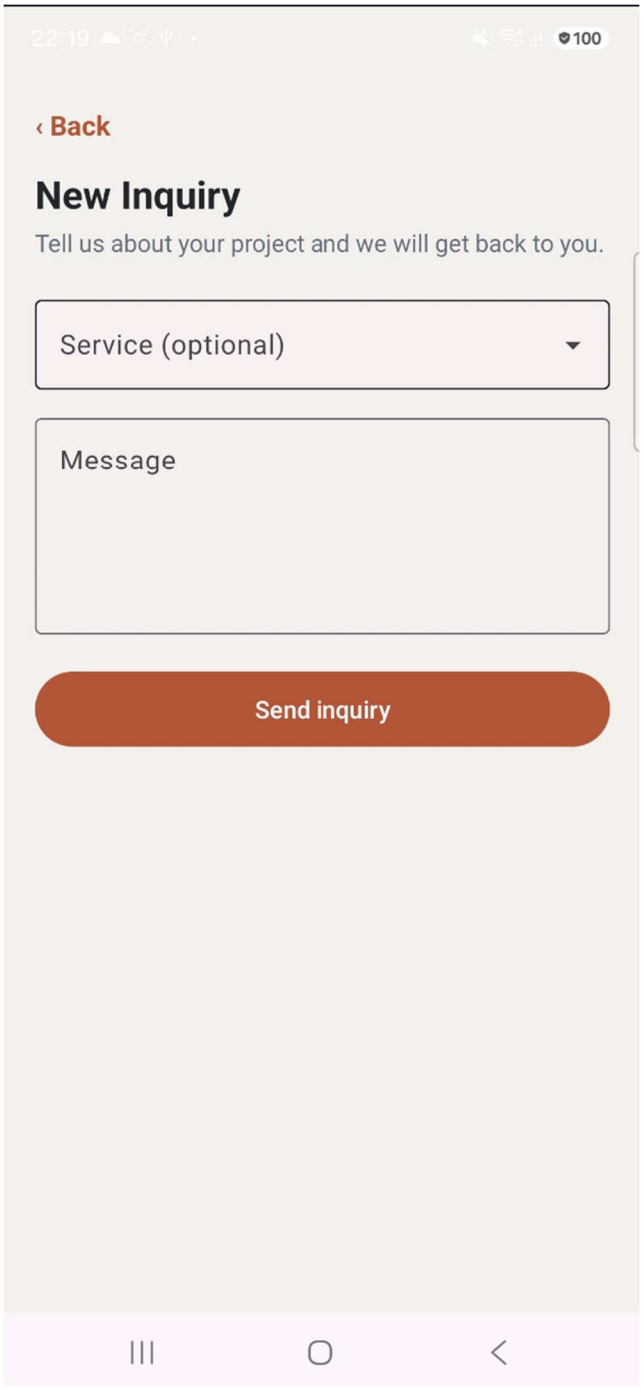

**Floor Plan rev 1** Draft
03 Sept 2026

View Download

### 5.4 Sending an inquiry

1. Open the **Inquiries** tab and tap **New**.
2. Choose a **Service (optional)** from the list.
3. Type your **Message**. The message is required.
4. Tap **Send inquiry**.

The inquiry appears in the list with the status **Open** and also reaches the Murendeni team on the website.

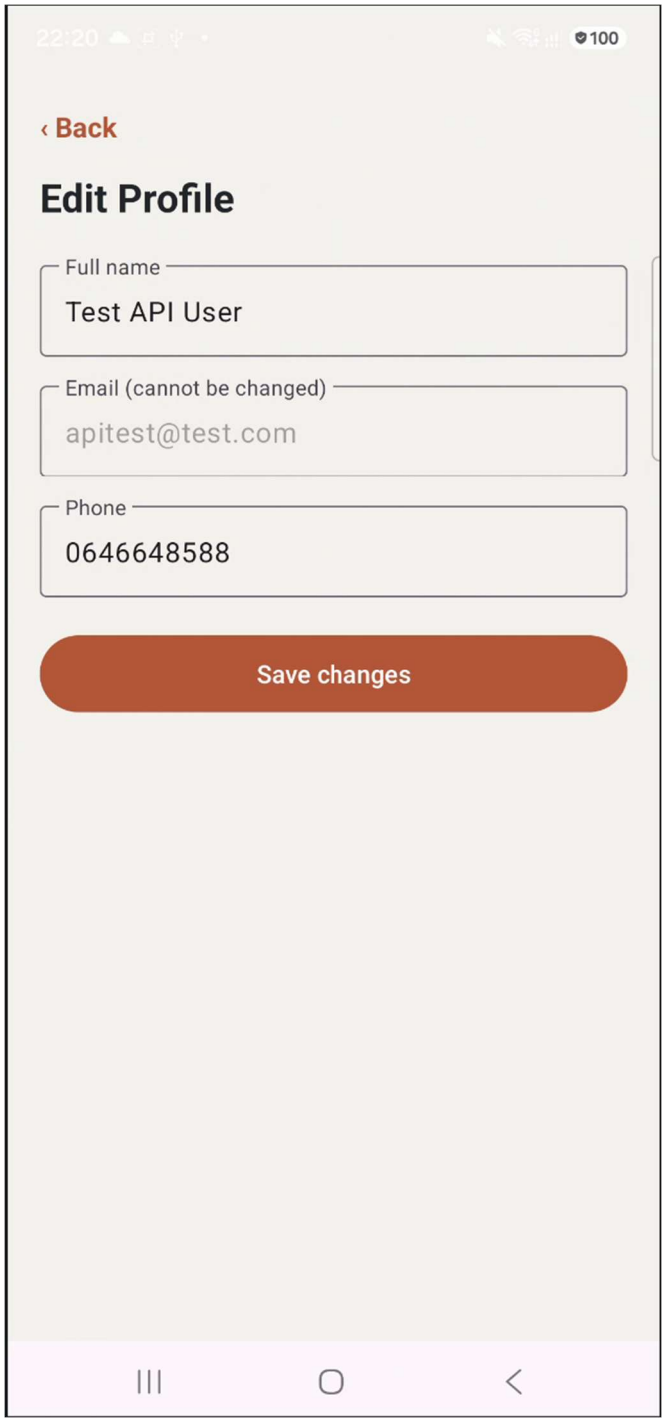

### 5.5 Following your inquiries

The **Inquiries** tab (**My Inquiries**) lists every inquiry sent, with its service, date, a message preview and its status. Pull down to refresh and see changes made by the team.

### 5.6 Changing your details

Open **Settings**, then **Edit profile**. Change **Full name** or **Phone** and tap **Save changes**. The email address cannot be changed.

## 6. Guide for designers

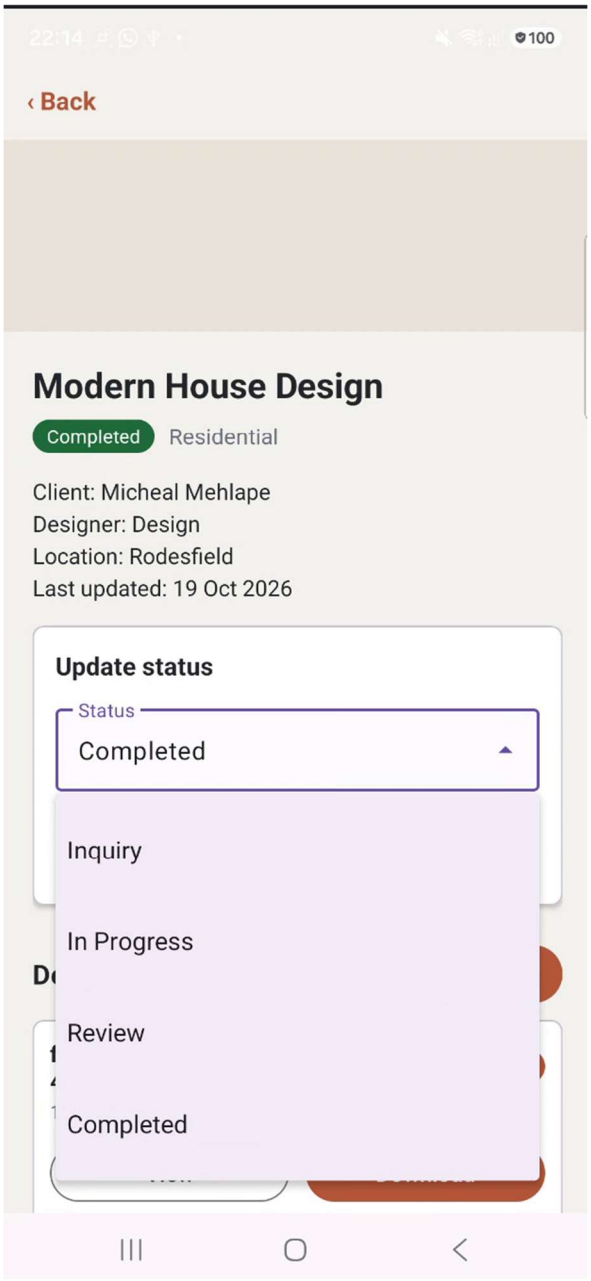

### 6.1 Seeing your projects

Only projects assigned to the designer appear on **My Projects**. Each card also shows the client's name.

### 6.2 Updating a project's status

1. Open a project.
2. In the **Update status** box, choose the new **Status**.
3. Tap **Save status**.

The client sees the new status the next time they open the app or the website.

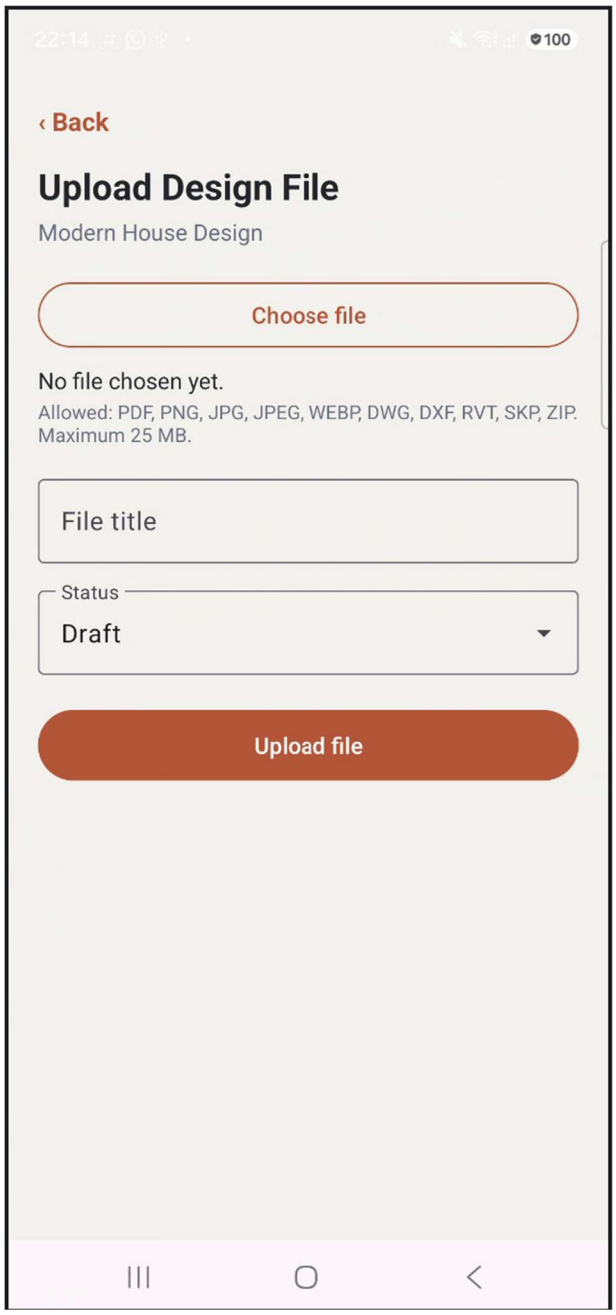

### 6.3 Uploading a design file

1. Open the project and tap **Upload**.
2. Tap **Choose file** and pick a file from the phone.

3. Check the **File title** (it starts as the file name) and choose a **Status**: Draft, Review, Approved or Archived.
4. Tap **Upload file** and wait for the upload to finish. The project screen then shows the new file.

Allowed types are PDF, PNG, JPG, JPEG, WEBP, DWG, DXF, RVT, SKP and ZIP. The largest file is 25 MB. The app explains the problem before sending when a file is not allowed or is too large.

### 6.4 What designers do not see

The Inquiries tab, client lists and project creation belong to sales staff.

## 7. Guide for sales staff

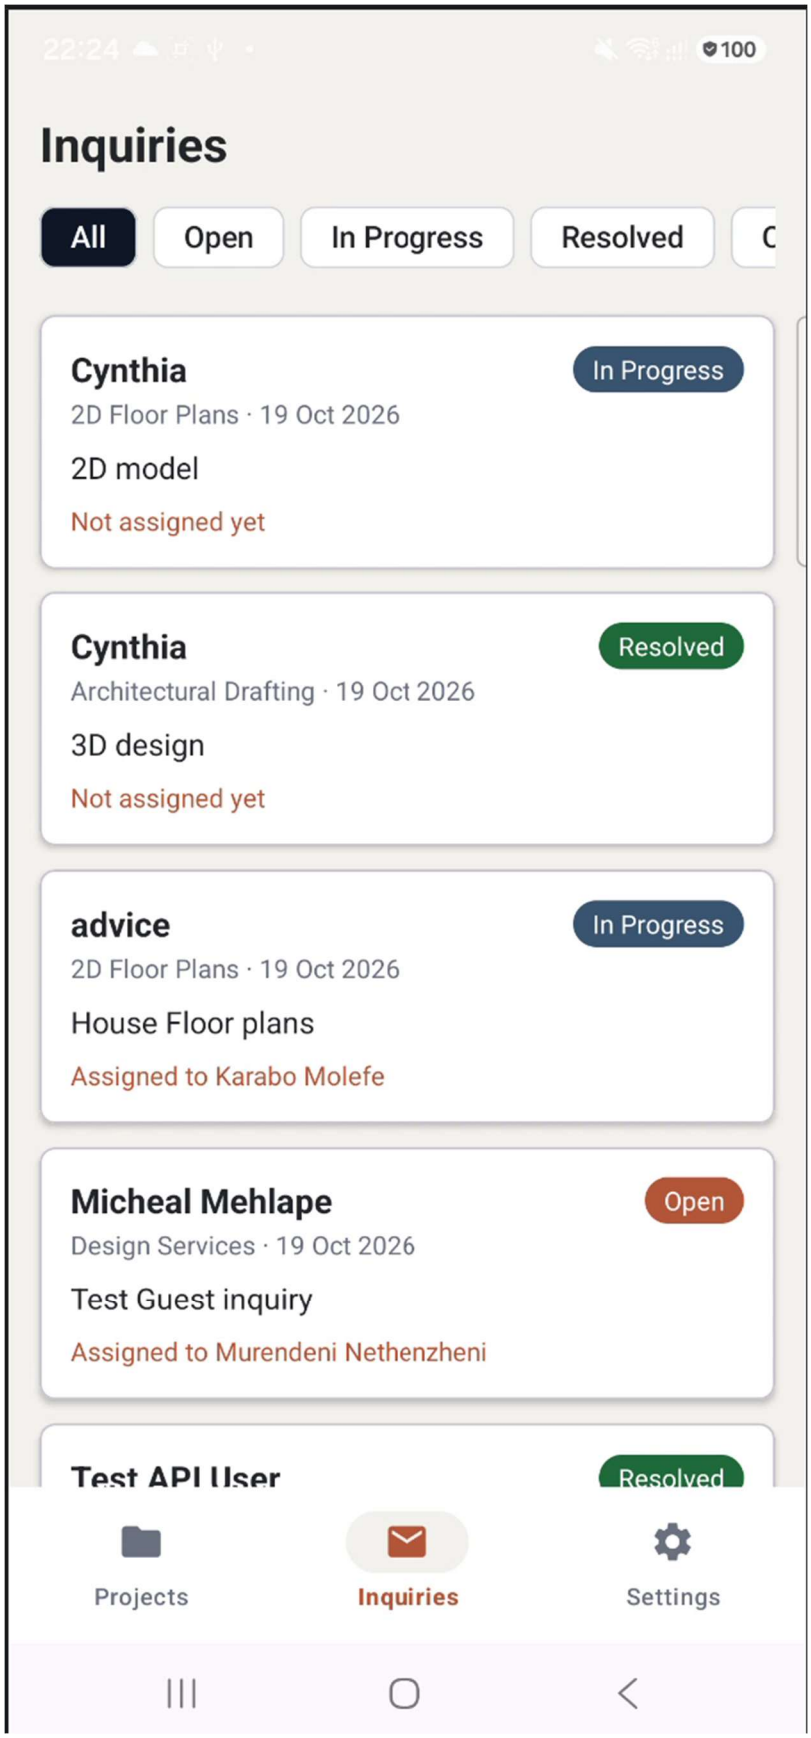

### 7.1 Seeing all projects

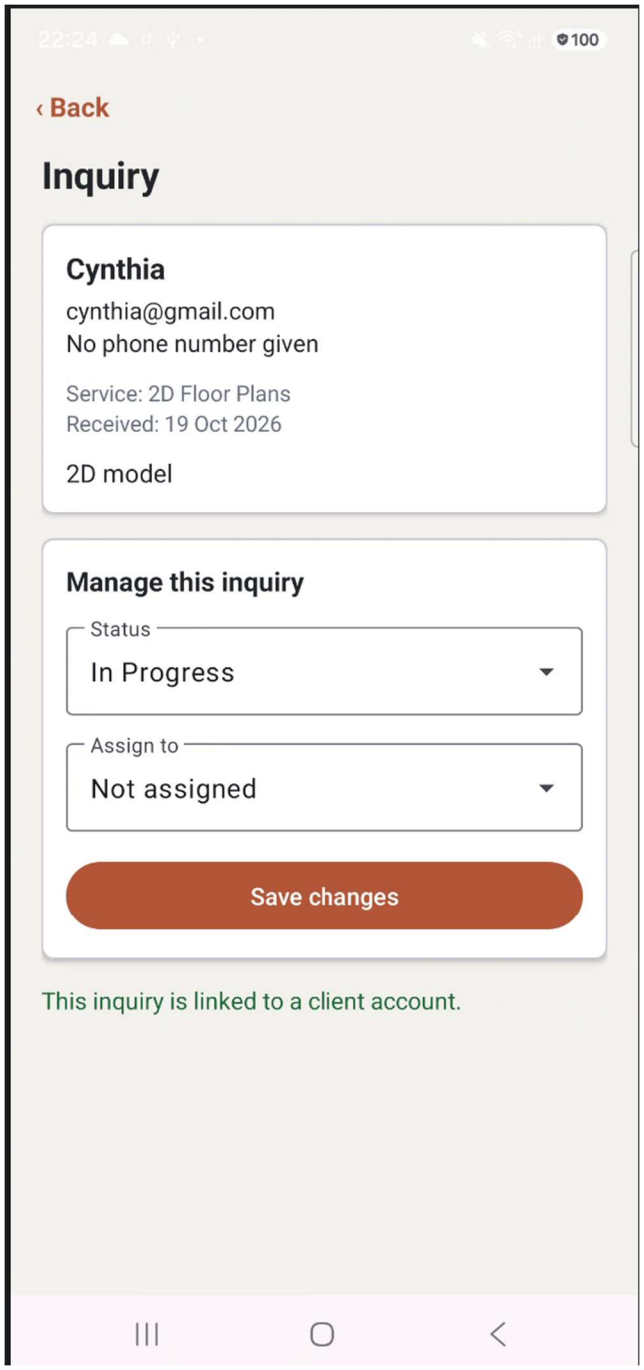

The **Projects** tab is titled **All Projects** and lists every project with the client's name. Tap **New** to create a project (see 7.4).

### 7.2 Managing inquiries

1. Open the **Inquiries** tab. Use the filter labels **All**, **Open**, **In Progress**, **Resolved** and **Closed** to narrow the list.
2. Tap an inquiry. The screen shows who sent it, their email and phone, the service and the message.
3. In **Manage this inquiry**, choose a **Status** and who to **Assign to**.
4. Tap **Save changes**.

Inquiries from visitors without an account are marked **Guest** in the list.

*Screenshot: inquiry details*

### 7.3 Creating a client account from an inquiry

1. Open an inquiry from a guest.
2. Tap **Create client account** and confirm with **Create**.
3. A box shows the new email and a temporary password. Tap **Copy password** and give it to the client. The password is shown only once.

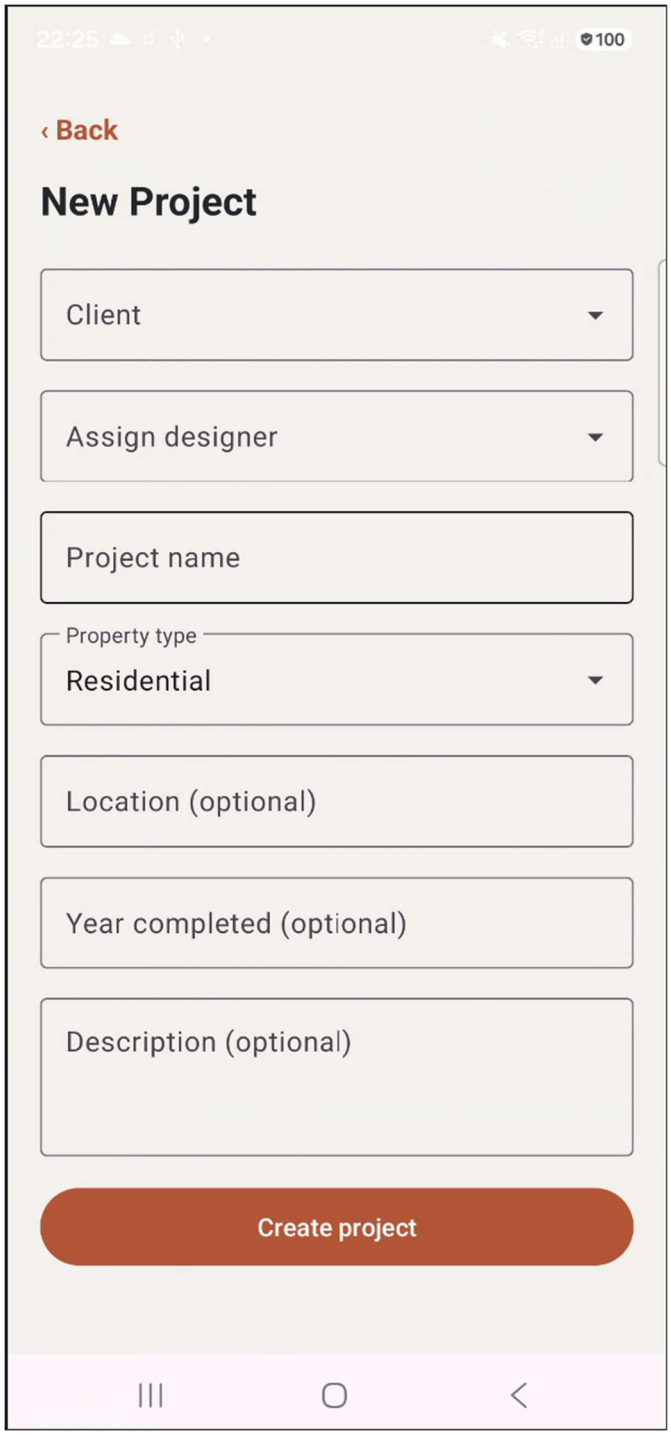

4. The client logs in and can change the password in **Settings**.

If the person already has an account, the inquiry is linked to it and no new account is made.

### 7.4 Creating a project

1. On the **Projects** tab, tap **New**.
2. Choose the **Client** and the **Assign designer**.
3. Enter the **Project name** and choose the **Property type**.
4. Optionally add the **Location**, **Year completed** and **Description**.
5. Tap **Create project**.

The project starts with the status **Inquiry**. Publishing a project to the public portfolio is done by an Admin on the website. Changing the designer later is done on the website under Manage Projects, then Edit.

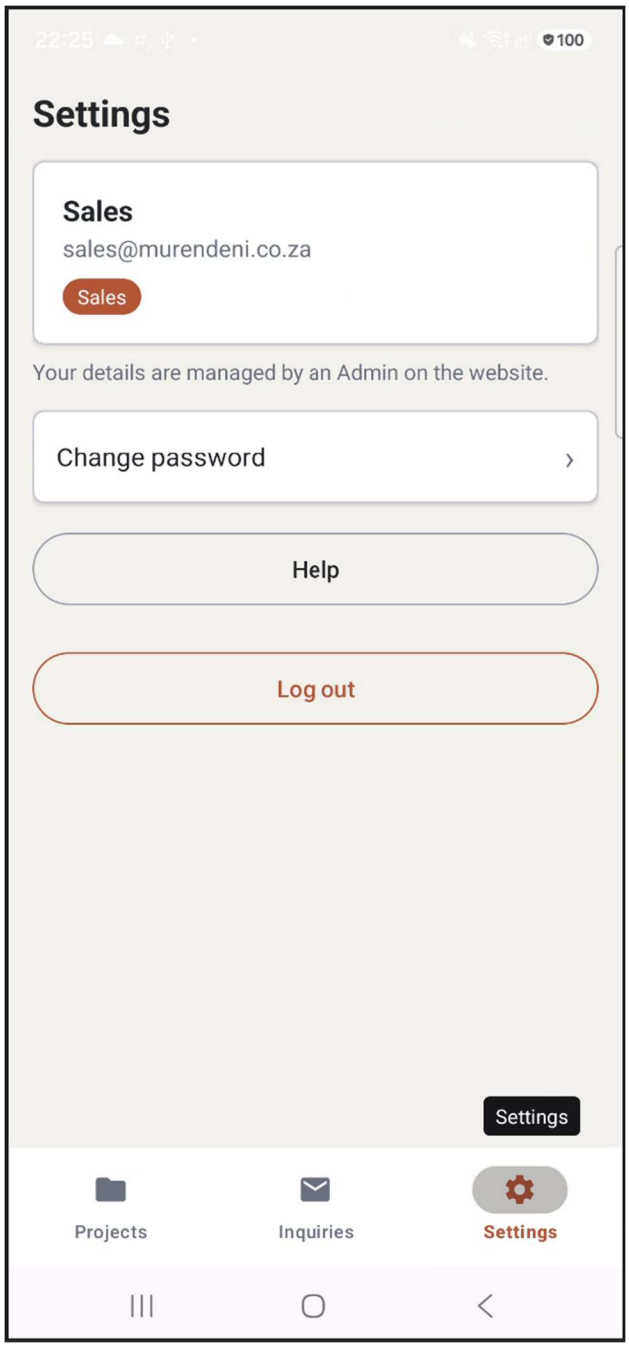

*Screenshot: New Project screen*

### 7.5 Changing a project's status

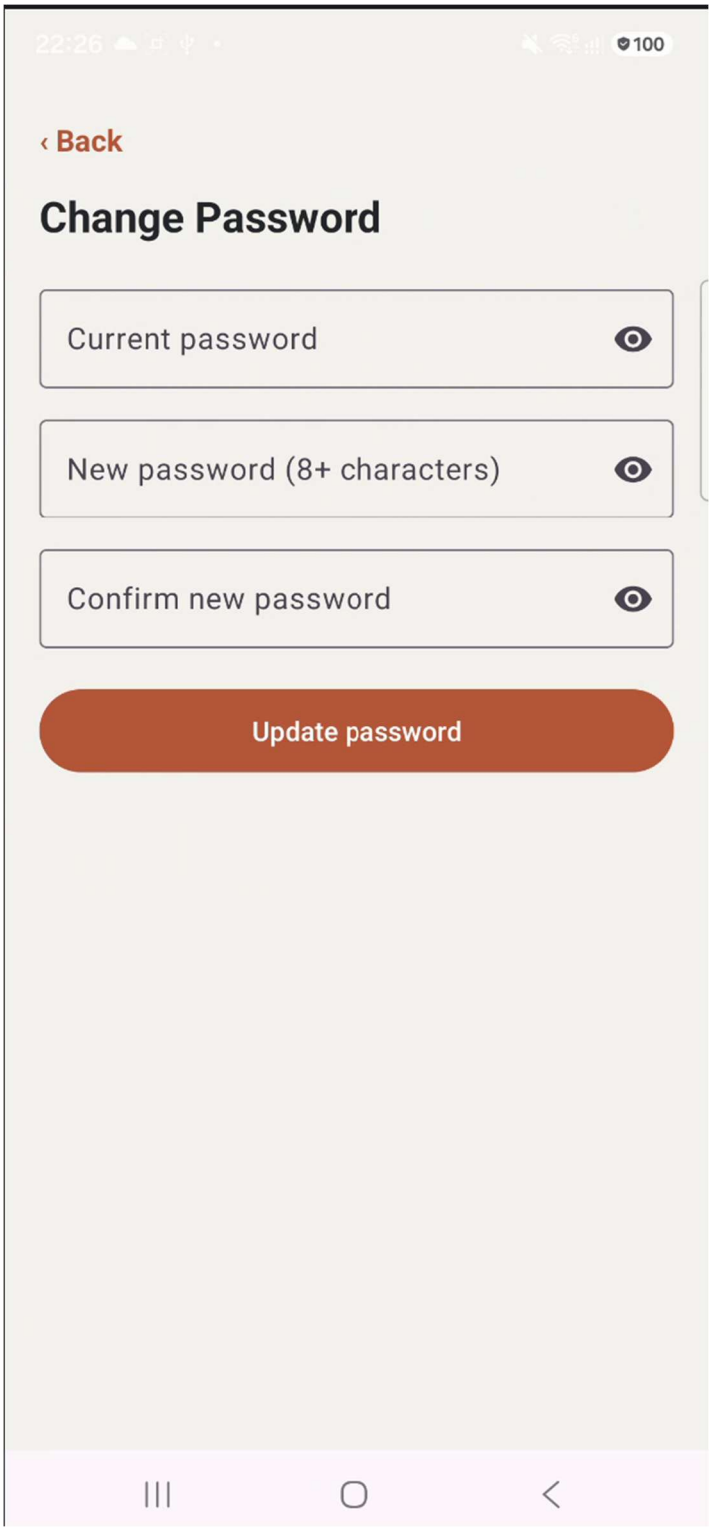

Open the project, choose a **Status** in the **Update status** box and tap **Save status**.

## 8. Settings for everyone

- **Change password**: enter **Current password**, **New password (8+ characters)** and **Confirm new password**, then tap **Update password**. The new password must be different from the current one.
- **Help**: opens the in-app help.
- **Log out**: ends the session.
- **Edit profile**: clients only. Staff details are changed by an Admin on the website.

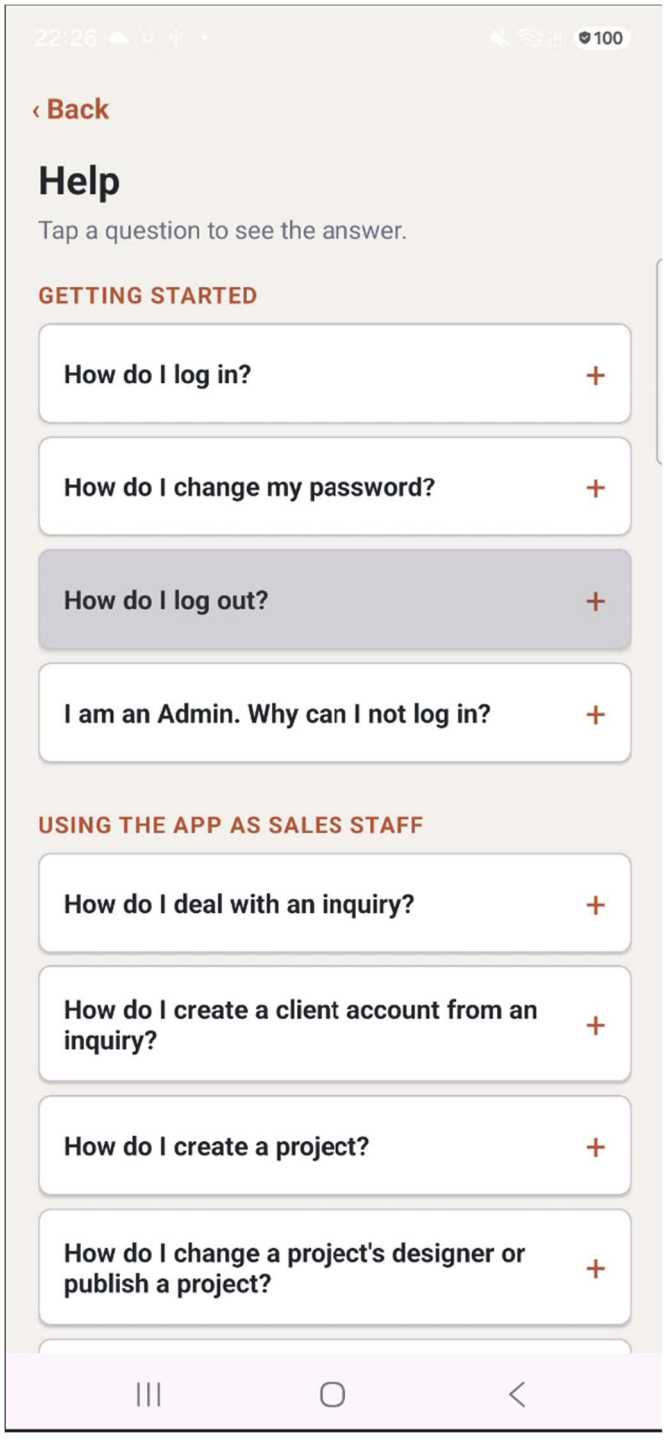

*Screenshot: Settings screen*

*Screenshot: Change Password screen*

## 9. Getting help

Open **Settings** and tap **Help**, or tap **Need help?** on the Login screen. The answers are listed as questions that open when tapped. Further help is available by phone on +27 11 123 4567 or by email at info@murendeni.co.za.

*Screenshot: Help screen*

## 10. Troubleshooting

| Problem | What to do |
|---|---|
| Incorrect email or password | Check the spelling and capital letters. Tap the eye icon to see the password. |
| Forgotten password | Passwords cannot be reset in the app yet. Contact Murendeni and ask for help. |
| Could not reach the server | Check the internet connection. The server may need up to a minute to wake after a quiet period. Tap **Try again**. |
| Your login has expired | Log in again. Logins last 24 hours. |
| A list is empty | Clients see projects only after the team creates one. Pull down to refresh. |
| A file will not upload | Check the file type and the size (25 MB at most). |
| A file will not open | Use **Download**, then open the file from the Downloads folder with a suitable app. |
| Admin message at login | Admin accounts work on the website only. |

## 11. Meaning of statuses

**Project status**

| Status | Meaning |
|---|---|
| Inquiry | The request has been received and the project is being set up. |
| In Progress | The design team is working on the project. |
| Review | The work is ready to be checked. |
| Completed | The project is finished. |

**Design file status**

| Status | Meaning |
|---|---|
| Draft | Work in progress, not final. |
| Review | Ready to be checked. |
| Approved | Checked and accepted. |
| Archived | Kept for records, for example after a newer version replaced it. |

**Inquiry status**

| Status | Meaning |
|---|---|
| Open | Received and not yet picked up. |
| In Progress | A team member is working on it. |
| Resolved | Answered or dealt with. |
| Closed | Finished. |

## 12. Screen and element reference

| Screen | Element | Purpose |
|---|---|---|
| Login | Email | Where the email address is typed. |
| Login | Password and eye icon | Where the password is typed. The eye icon shows or hides it. |
| Login | Login | Signs in. |
| Login | Don't have an account? Register | Opens the Register screen. |
| Login | Need help? | Opens the Help screen. |
| Register | Full name, Email, Phone (optional) | The account details. |
| Register | Password (8+ characters), Confirm password | The new password, typed twice. |
| Register | Register | Creates the account. |
| Register | Already have an account? Login | Returns to the Login screen. |
| Projects | Project card | Opens the project. |
| Projects | New (sales staff only) | Opens the New Project screen. |
| Project details | ‹ Back | Returns to the list. |
| Project details | Update status box (designers and sales staff) | Changes the project status. Contains the Status list and **Save status**. |
| Project details | Upload (designers only) | Opens the Upload Design File screen. |
| Project details | View and Download | Open or save a design file. |

| Screen | Element | Purpose |
|---|---|---|
| Inquiries (clients) | New | Opens the New Inquiry screen. |
| New Inquiry | Service (optional), Message, Send inquiry | The service list, the message box and the button that sends it. |
| Inquiries (sales staff) | All, Open, In Progress, Resolved, Closed | Filter the list by status. |
| Inquiry details | Status, Assign to, Save changes | Change the status and the person responsible. |
| Inquiry details | Create client account | Makes a client account from a guest inquiry. |
| New Project | Client, Assign designer | Who the project is for and who designs it. |
| New Project | Project name, Property type, Location, Year completed, Description | The project details. |
| New Project | Create project | Saves the project. |
| Upload Design File | Choose file, File title, Status | The file, its name and its status. |
| Upload Design File | Upload file | Sends the file. |
| Settings | Edit profile (clients only) | Opens the Edit Profile screen. |
| Settings | Change password | Opens the Change Password screen. |
| Settings | Help | Opens the Help screen. |
| Settings | Log out | Ends the session after a confirmation. |
| Edit Profile | Full name, Email (cannot be changed), Phone | The details. Only name and phone can be edited. |
| Edit Profile | Save changes | Saves the details. |
| Change Password | Current password, New password, Confirm new password | The old password and the new one, typed twice. |
| Change Password | Update password | Saves the new password |
